

Agroecological zones

- Tropics, highland; sub-humid, with soil/terrain limitations (n= 3582)
- Tropics, highland; sub-humid, no soil/terrain limitations (n= 2201)
- Land with severe soil/terrain limitations (n= 2177)
- Tropics, highland; semi-arid, with soil/terrain limitations (n= 1398)
- Tropics, lowland; semi-arid, no soil/terrain limitations (n= 1397)
- Tropics, lowland; sub-humid, with soil/terrain limitations (n= 1177)
- Tropics, highland; humid, with soil/terrain limitations (n= 1016)
- Tropics, lowland; humid, with soil/terrain limitations (n= 693)
- Ample irrigated soils (n= 437)
- Tropics, lowland; semi-arid, with soil/terrain limitations (n= 423)
- Tropics, lowland; humid, no soil/terrain limitations (n= 384)
- Tropics, lowland; sub-humid, no soil/terrain limitations (n= 257)
- Tropics, highland; humid, no soil/terrain limitations (n= 206)
- Dominantly very steep terrain (n= 87)
- Tropics, highland; semi-arid, no soil/terrain limitations (n= 54)
- Dominantly hydromorphic soils (n= 46)
- Desert/Arid climate (n= 33)
- Dominantly built-up land (n= 30)
- Cold, no permafrost; wet, with soil/terrain limitations (n= 12)
- Dominantly water (n= 3)
- Cold, no permafrost; moist, with soil/terrain limitations (n= 0)
- Cold, no permafrost; wet, no soil/terrain limitations (n= 0)
